

LET'S MAKE A

HEART BUTTERFLY!

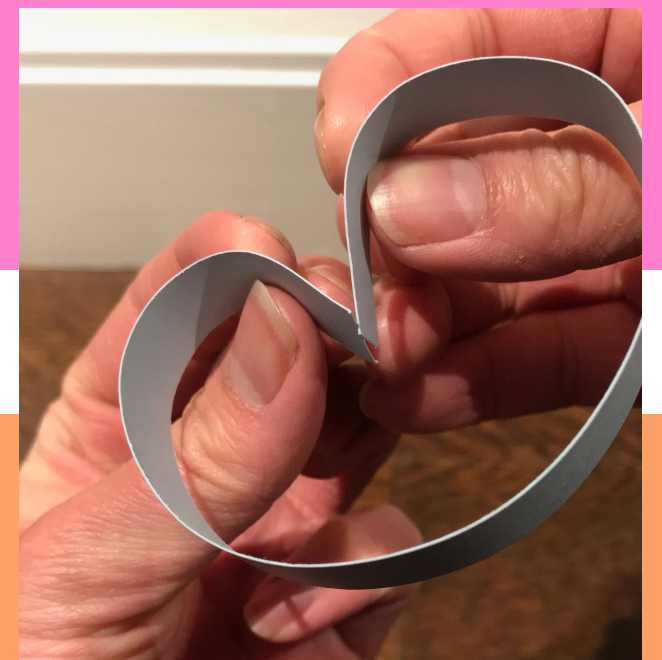

from Buggy and Buddy: <https://buggyandbuddy.com/paper-heart-butterfly-craft/>

1. Gather materials: 3+ sheets of colorful paper, glue or tape, and scissors

2. Cut 2 strips of paper from the LONG side of one sheet, 2 strips of paper from the SHORT side of another sheet, and 2 THIN strips from the third sheet.

3. Put glue on the ends of one of the strips, then bring the ends together and in, like you're making a heart (you are!). Glue the ends together.

4. Repeat for the other strips of paper (but not the 2 thin strips). Curl the ends of the thin strips a few times to make antennae.

5. Glue the bottom sides of each heart together like in the picture, then glue the antennae to the butterfly's head. Done!
