

LET'S MAKE A FISHING WAND!

MATERIALS

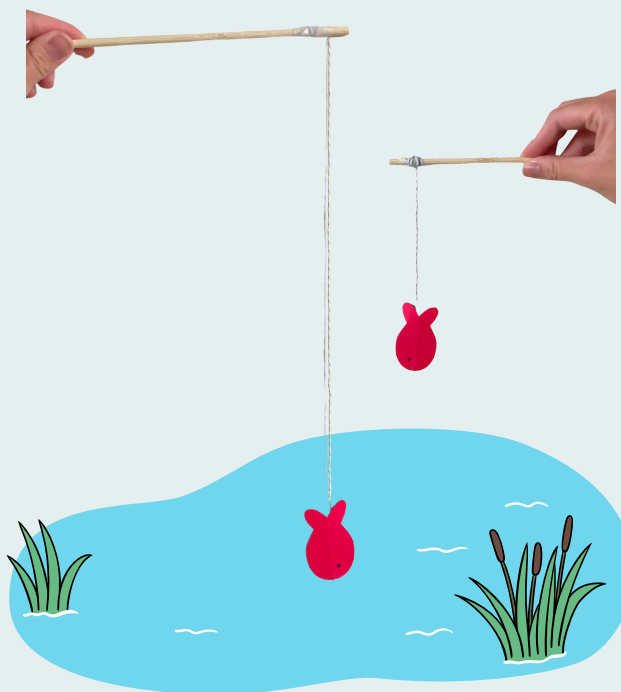

YOU'LL NEED:

- colorful paper (1 piece)
- a chopstick or pencil
- tape
- scissors
- string
- our fish template (optional)
- pen or marker (optional)

STEPS:

1. Cut your string to the length you'd like it to be, then wrap it around one end of your chopstick (or pencil). Wrap tape around the string so it doesn't move!
2. Use your pen and scissors to draw and cut out a small fish from your colorful paper. You can also cut out and trace our fish template to help you!
3. Tape the loose end of your string to your fish.
4. Add an eye if you feel like it-- then you're all done!

FISH TEMPLATES

Pick a fish! Then, cut it out and trace it onto a piece of colorful paper. You can also simply cut it out and color it.
