

Perseverance Marble Maze

Just like Jabari and Mel, we also have it within us to try, try, and try again, this is called perseverance. This week's craft will be about testing out perseverance skills in a DIY marble maze.

Materials:

- Box Lid or Paper Plate
- Straws
- Glue
- Scissor
- Marbles [No marble, no problem! Use a large bead OR crumple a small piece of aluminum foil and roll it between your palms to form a ball.]

Instructions:

1. Cut the straws into different lengths with a scissor

2. Glue the straws in different places; Try to make the maze in different shapes, to make it harder.

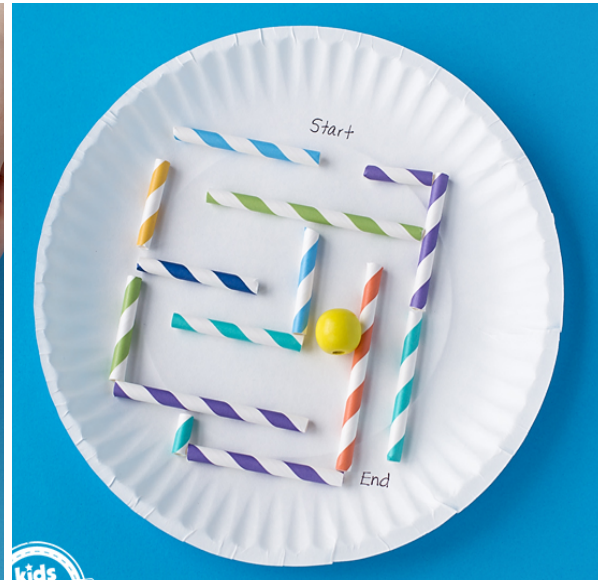

○ Option 1

○ Option 2

3. Pick/Write "Start" and "Finish" at each end of your maze

4. Give your maze a try! Can you make it from one end to the other?! Don't give up! You can do it! 加油 !
